

**626 WEST JACKSON LOBBY
CHICAGO, IL**

Challenges

- Create an “ice box” look envisioned by the designer.
- Create a seamless, cool lighting effect without seeing lighting fixtures.
- Maintain a consistent color temperature using LED fixtures on a variety of materials and surfaces.
- Create a dramatic effect on a limited budget.

Design

- Create “icy” glass walls with 10° Insight Tre’o LED at 5200k mounted in top and bottom.
- Illuminate desk with 60° Insight Tre’o LED at 5200k mounted in top.
- Graze textured wall with 10° Tre’o LED.
- Use custom cut LED white tape light in elevator cabs and above cab doors.

Solutions

- Integrated all lighting into an ETC dimming panel and created several scenes and dramatic effects.
- Advised on design, provided mockups, and conducted field measurements to ensure desired look.
